

### Description

Jab is a fast-acting scented cleaner that acts in just 5 minutes. Thanks to the special formula containing biodegradable and non-aggressive surfactants, Jab allows you to quickly clean and degrease the most delicate surfaces without damaging them.

The concentrated formula, absolutely safe for the technician, can be diluted with water up to a ratio of 1:5, depending on the level of the dirt to be removed. Jab is the ideal cleaner for frequent and regular maintenance of indoor units and, thanks to the special trigger, can be applied both in liquid and foam form. In particular, the foam adheres better to the surface, allowing better adhesion of the cleaner inside the evaporator coils. Jab is HACCP-compliant and releases a pleasant scent.

### Features

- Easy to use
- Effective in just 5 minutes
- Suitable for cleaning different kind of hard surfaces
- Ideal for professional cleaning of evaporators
- **Disinfectant registered in Germany (N-108916)**

### Instructions

1. Turn off the A/C system.
2. Dilute JAB according to the level of dirt to be treated (maximum recommended dilution 1:5 with tap water).
3. Spray the product on the entire surface to be treated:
  - in liquid form, for better spread among the evaporator coils
  - in foam form, for better adhesion on plastic surfaces.
4. Wait for 5 minutes.
5. Rinse and wipe clean with a soft cloth.

### Physical and Chemical Properties

| Property         | Value                             |
|------------------|-----------------------------------|
| Aspect           | Clear liquid                      |
| Colour           | Green                             |
| Odour            | Characteristic                    |
| Relative density | 1,0000 ± 0,005 g/ml (at T = 20°C) |
| pH               | 11 ± 1                            |

### Categorisation and Labelling

This technical specification is only applicable when it comes with the current Safety Data Sheet. In accordance with legal requirements, only the Safety Data Sheet contains current safety information. The MSDS is available on request.

## Safety Instructions

Avoid contact with eyes and skin and inhalation of vapour and mist.

Dispose of the product/container in accordance with the regulations. Before transfer operations, make sure that there are no incompatible materials remaining in the containers.

## Storage Instructions

Store between 0°C and 40°C (+32°F and +104°F).

Store in a cool and well ventilated place.

Keep away from direct sunlight.

Keep away from food, beverages, and animal feed.

## Transport Conditions

This product is not regulated for transport according to ADR/RID, IMDG, ICAO/IATA.

## Packaging

| Art.-Nr.    | Description          |  |  |  |
|-------------|----------------------|---|---|---|
| AB1068.K.S1 | 1 L Spray Bottle RTU | 06  | 576   | 576   |
| AB1068.K.C1 | 1 L bottle           | 06  | 576   | 576   |
| AB1068.P.01 | 5 L tank             | 02  | 144   | 144   |
| AB1068.D.01 | 10 L tank            | 01  | -   | -   |

Trigger sprayers, bottles and tanks are made of 100% recyclable plastic.

## Shelf life

7 years from the date of production.

## Hazard Statements

**Hazard statements:** H412 Harmful to aquatic life with long lasting effects.

**Precautionary statements:** P501 Dispose of contents/container in accordance with applicable regulations.

**Contains:** 1-(1,2,3,4,5,6,7,8-octahydro-2,3,8,8-tetramethyl-2-naphthyl)-ethanone; 1,2-benzisothiazolin-3-one: May produce an allergic reaction.
